

UNIVERSITY OF LUBUMBASHI

SCHOOL OF PUBLIC HEALTH

EXCHANGE PROGRAM

Our School provides education (Bachelor, Master degree, PhD), researches and community services in public health.

As a host institution

- **For students**, we offer
 - master course “Epidemiology and health service organization”
 - Vocational training at any level of national health system.
- For PhD students, we offer:
 - Courses and preparation to PhD thesis.
- **For teachers and staff**, we offer:
 - co-teaching positions in these topics: qualitative research methodology and health Economy
- Field researches (we have collaborative experience with partner institutions: ITM, ULB and ESP Kinshasa).

In the future

- We will offer another master degree course: Care and Quality in health services.
- Short-Courses in :
 - Reproductive health
 - Hospital hygiene

As a sending institution

- We need teachers for :
 - Training trainers in pedagogy, multimedia, e-learning.
- We need assistance for :
 - Setting up a public health laboratory
- We need to develop:
 - with other experts field research in Public health
 - Quality assurance (External evaluation of a course; management at institutional level)
- We need Linqed members to participate to our master and PhD juries on Epidemiology and health service organization
